EDUCATION

Rice University, Houston, Texas   **Fall 2018 – Spring 2022**
- Computer Science B.A.
- Business Minor

ACS Cobham International School, Cobham, Surrey   **August 2016 - June 2018**
- International Baccalaureate Diploma

WORK EXPERIENCE

Software Engineer, Currux Vision   **January 2019 - Present**
- Working on the front and back end of the main artificial intelligence application. I take care of deploying features and maintaining the code stable throughout the development process.

Technical Support Assistant, Rice University   **October 2018 - Present**
- Helping students with any issue they have with connecting to the video session. Working with Zoom and the application's back-end to ensure 99% uptime and reliable connections.

Language Consultant at Rice University   **September 2018 - Present**
- Having 15 minutes conversation sessions to let student practice speaking Italian. I also help them with any grammar question they might have about the language.

Software Development, Intern at PressToday   **July 2017 – August 2017**
- Developed an analytics platform for the company's client using JavaScript full-stack. I was also leading a team of 5 other interns that were working on the platform with me.

Disc Jockey   **May 2013 – January 2017**
- I played at events such as weddings and fashion shows where I had to understand the people in front of me to pick the right music and I had to think critically about my choices

EXTRA CURRICULAR ACTIVITIES
